Annual Operating Instructions

I. INTRODUCTION

Kendall Brown (Forest Service) met with Russell Slaughter (permittee) on January 7, 2020 to discuss management of the Mule Creek Allotment during the current grazing year and to plan grazing management for the upcoming grazing season. These Annual Operating Instructions are the result of that discussion.

Term Permitted Livestock Numbers

Number and class of livestock	Dates
150 Cattle-Cow/Calf	03/01 – 02/28
4 Horses – Saddle (not to exceed 24 head months)	03/01 – 02/28

Mule Creek Allotment Annual Authorization

Number and class of livestock	Dates
145 Cattle-cow/Calf	03/01 – 02/28
7 horses (saddle)	03/01 – 02/28

Mule Creek Allotment Pasture Rotation

Class of Livestock	Rotation Date	Pasture
Cow/calf	03/01 – 05/30	Sawmill
Cow/calf	06/01 – 08/30	Walnut
Cow/calf	09/1 – 10/30	South Holding
Cow/calf	11/1 – 02/28	Wildcat
Horses (Saddle)	03/01 – 02/28	With Cattle

Small holding pastures will be used for holding, branding, shipping, doctoring, etc. and horses as needed. Livestock can remain in these pastures until allowable use is reached.

The above schedule for stocking the allotment depends upon the availability of forage and water. Some flexibility in the above pasture rotation dates will be allowed for justifiable causes such as weather conditions, livestock management needs, and range conditions. If there is a need to deviate from the above pasture rotation schedule by more than 15 days, you must notify the Ranger District of the proposed change in the pasture rotation date and the reason for the change. A deviation from the above schedule of more than 15 days must be approved verbally or in writing. Credit/Refund applications will not be processed unless District personnel have been notified either in advance or at the time of removal of stock.

II. MANAGEMENT OF LIVESTOCK

You are responsible for monitoring water availability and forage utilization. It is your responsibility to move your livestock when sufficient water is no longer available or when proper forage utilization is achieved in a pasture. You are responsible for keeping track of and

maintaining control of your livestock. In the event your livestock are found to be out of the scheduled pasture, you will be required to find, gather, and return your animals to the proper pasture as soon as possible.

III. IMPROVEMENT MAINTENANCE

All range improvements assigned in the 10-year Term Grazing Permit are to be maintained in a functioning condition. In the event these improvements cannot be brought up to a functioning condition, you should notify the Range Staff at the Glenwood Ranger District to schedule them for reconstruction as funds become available.

2020 planned improvement (in order of priority):

- Roads 4075R, 4075Q, and 4076R need work
- Add storage tank (3000 to 5000 gal) and drinker to Sunflower Corral. Permittee will haul water to this when cattle are in corral.

IV. SPECIAL MANAGEMENT CONCERNS

Keep track of conditions on your allotment and make plans to reduce or remove livestock if vegetative/watershed conditions could be substantially harmed due to continued grazing.

V. MODIFICATIONS

If unforeseen operational conditions require a change in the management specified in this AOI please contact rangeland management personnel at the Glenwood Ranger District. Change requests should be made in advance so that field inspections (if necessary) can be conducted. Approval of changes to this AOI may be verbal or written, depending on the nature of the change requested. Verbal changes will be documented to your file for record keeping purposes. Failure to follow the direction provided in this AOI, or other instructions (verbal or written) of a Forest Officer may lead to adverse action against your Term Grazing Permit (Part 1, Section 3 of your Term Grazing Permit).

Open and positive communications concerning all AOI content is encouraged. Feel free to contact Kendall Brown if you have any questions or concerns.
